

📍 Switzerland, Meyrin

Product Industrialization Engineer

Your tasks

- Develop and maintain strong working relationships with our OEM partner, ensuring effective communication and collaboration.
- Work closely with the product development team to align product strategies and roadmaps with the OEM's requirements and market trends.
- Coordinate with the supply chain department to ensure timely delivery of materials and components required for OEM production.
- Implement quality control processes to ensure products meet the OEM's specifications and quality standards.

Your profile

- Bachelor's degree in business administration, supply chain management, engineering, or a related field (advanced degree preferred).
- Proven experience in a similar role, preferably within the OEM or manufacturing industry.
- Excellent problem-solving skills and the ability to identify and resolve issues effectively.
- Strong communication and interpersonal skills to collaborate with cross-functional teams and external stakeholders.
- Detail-oriented mindset with a focus on maintaining high-quality standards.

Who we are

GF Machining Solutions is the world's leading provider of machine tools, diverse technical solutions and services to manufacturers of precision molds and tooling and of tight-tolerance, precision-machined components. The key segments we serve include the aerospace, automotive, medical, energy, information and communications technology (ICT) and electronics industries
